

Ahcp Professional Development Programme

Who is this programme for?

As a member of a cleaning team this programme has been designed to evidence that you meet the requirements and competencies relating to your role. It helps you to reflect on how you are applying what you have learned through induction and training.

How will the programme help me meet the requirements?

Cleaning Science workshops to compliment your learning and support your successful completion will be available. The study of cleaning as a science will enable the transfer of knowledge which impacts on your cleaning related activities. These may be classroom based or accessed via the ahcp website – www.ahcp.co.uk

In the programme you will find multiple choice questions based on the requirements of your role as outlined below. Each question is designed to help you demonstrate that you are competent as a Healthcare Cleaning Professional and will be followed up with practical demonstrations.

Course Content:

- 1. Infection Prevention and Control**
- 2. Cleaning and the Environment**
- 3. Practical Cleaning Applications**
- 4. Health, Safety and The Environment**
- 5. Communications and Customer Service**
- 6. Personal Development**
